

DURALACTIN®

F E L I N E

Joint Plus Paste

Do Your Clients Mention?

- She's been missing the litter box lately.
- He has become such a grumpy cat.
- She just doesn't groom herself anymore.
- I finally trained him not to jump on the counter.

In a retrospective study 90% of cats over 12 years old have difficulties with normal activities.*

Maybe these cats need a joint effort.

Duralactin® Feline Joint Plus Paste

Helps Maintain Healthy Cartilage and Joint Function While Managing Inflammation

Formulated with 8 proven active ingredients that work together with 4 different modes of activity to help maintain healthy joint function in a taste tested easy-to-give paste.

32.5 ml syringe, 12 syringes per case
Item Number: 100505432

What is in Duralactin® Feline Joint Plus Paste?

- MicroLactin® dried milk protein
Inhibits neutrophil activity in the inflammatory response.
- Glucosamine HCl
May help maintain health and resiliency of joints and connective tissues.
- Methylsulfonylmethane (MSM)
Helps support healthy muscles and joints.
- Manganese
Cofactor in joint fluid synthesis
- Omega 3 Fatty Acids (EPA and DHA)
Manage inflammatory mediators and help maintain healthy cartilage.
- Zinc and Vitamin E
Protect cell membranes from free radical oxidation.
