

Announcing...

# Duralactin® Canine & Feline Liquid

For the long term management of chronic inflammatory conditions and to help support normal activity and wellness in dogs and cats

Highly palatable product for cats and small dogs.

Poultry flavored liquid that dogs and cats readily accept when fed directly or given with food.

### Active ingredients per teaspoon (5 ml)

MicroLactin® dried milk protein.....	200 mg
Omega 6 Fatty Acids.....	198 mg
Omega 3 Fatty Acids.....	90 mg

Combines benefits of MicroLactin® dried milk protein with added effects of fatty acids.

### Fatty acids are important for:

- Healthy skin and coat maintenance
- Immune system support
- Proper joint function
- Gastrointestinal health

Duralactin® Canine & Feline Liquid may be used as a primary supplement to help manage inflammation or as adjunctive therapy. Response is expected in 4-7 days with peak response in 10-14 days.
